Due Diligence / Risk Mitigation

Contemplating a new partnership, joint venture, merger, or restructuring? Then take advantage of a due diligence investigation. In today's business environment, timely and accurate intelligence isn't an option — it's a necessity.

Before making a move. Call us to help uncover possible hidden "Gotchas"

Crimcheck.com is uniquely qualified to spot potential fraudulent business or investment opportunities as well as unqualified executives. Our Due Diligence Check utilizes our extensive network of database sources, public record retrievers, law enforcement, news media and business contacts to develop the most reasonably accurate picture of the person or business you are dealing with.

Your customized report can include searches in the following:

- **Criminal Conviction Check**
- **Civil Litigation Check**
- **Federal Bankruptcy Report**
- **Business Credit Report**
- **Federal Criminal Check**
- **Federal Civil Check**
- **Office of the Inspector General**
- **Media Check**
- **Personal Profile Database Check**
- **Secretary of State/Corporations Check**
- **Employment, Education and Personal References**
- **...and many other options**

Our goal is to provide you with fast and comprehensive reports. We realize that time is money and we can normally turnaround a basic Due Diligence check in about 2-3 days. Most checks of this nature fall outside the scope of the Fair Credit Reporting Act, thus we can bring to bear a more thorough and extensive set of information resources.

Call today for more information.
